Better than the first one but still a somewhat average albeit enjoyable experience. Try it.. Most boring game ive ever played. Ive had more fun on \u2665\u2665\u2665\u2665ing roblox.. This game by far surpasses any game in terms of visual beauty and haunting realism, the immersion is just amazing. This detective\thriller game is so beautiful you forget that someone\something is going around making people murder others and trying to murder a child, you walk from fresh to corpse to fresh corpse simply indulging yourself in the games amazing use of photo-to-texture conversion, truly an immersive experience. Would piece together crimescenes again 10\10. Good game at a decent price.. I loved this game, but It struggles to even launch on Windows 10 and Rockstar is no help.. Ever get Meta Knightmare mode in Kirby and go, "Damn! I really wish I could pay ten dollars for this!" Well now you can! Just trade the screen murder for upgrades.

Yeah... don't buy this... I love this game yeah. But come on. \$10 for this? Really? There's no where near as much back tracking as there was in Shantae's run. Which I'm still debating on whether that's good or not..

Wait till a sale.. This DLC is kind of a story DLC for Arkham Origins, but, unlike Cold, Cold Heart, it doesn't take place in the main map, or in a new area created for it. Rather, it takes place in the form of a challenge campaign (which consists of five new maps), in which you control Bruce Wayne during his training before becoming Batman.

As a challenge campaign, it consists of both Predator and Combat challenges, each with their own mutators; unlike the regular challenge campaigns, each map in this campaign has a specific set of mutators, and you get five retries rather than three. Also, the final challenge (which is a Combat one) includes a sort-of boss battle. Between maps, you'll get a brief cutscene with Master Kirigi (the guy who trains Bruce) talking with his students and Bruce.

The DLC also allows you to use Bruce Wayne in Challenge Mode, including all the regular maps and campaigns. Bruce comes with his own set of moves and gadgets, which are somewhat simplified versions of Batman's gadgets, and adds a certain variety to the challenge maps, if they're your thing. It also includes two different skins for Bruce.

Well, while it's nothing spectacular, it's still a decent enough DLC, so I recommend it, but only as part of the Season Pass.. Pros:
-The voice acting. It's bad but in an endearing way. Like there's a part where the monster is chasing you and it's supposed to be growling-but honest to god it just sounds like a grown man meowing at you.

- Art is good
- backgrounds are interesting enough
- The plot is interesting enough to keep you entertained
- I actually liked the characters well enough

Cons:

- the end?? Like i have no idea if i got the wrong end or something but its pretty much just a cliff hanger that never gets resolved. Who knows. Maybe he's planning a sequel or something
- So. Much. Walking. Abdulla, my guy, you do not need to use that many paths. Especially if you're going to have the player use the entire map the whole game
- Some of the puzzles were infuriating
- I know everyone has mentioned this before but the writing on the ground is corny as hell

In conclusion: For a first game its pretty good. if you have four bucks to spare and enough energy to slog through the tedious parts (*coughcough* walking *coughcough*), then go for it.

The game is alright, and i do recommend, But THOUSANDS OF FLAWS Are included.

-There needs to be multiple ways to go just like binding of isaac. This is inspired by binding of isaac, right?

-There has to be more levels.

-More Powerups must be there

-more characters

-and make updates.. Pretty good. Free. Very JRPG. You kill God with the power of love. 6V10.. I wanted to play this game because I like the guy who made it. I like this game. However, you cannot play this game alone. In a game like basketball, you could bounce a ball outside (alone) and feel entertained. VIDEOBALL does offer this option. However, the computer players are intelligent and unfriendly to players who are used to playing by themselves.

The most enjoyable experience you could have with this game is with three or five buddies who WANT to play VIDEOBALL on a couch in front of a widescreen display.

I tried to introduce four of my buddies to VIDEOBALL. My bud who was on my team enjoyed playing. We verbally strategized and took on different positions to maximize our abilities and control space. The two on the opposing team were both greenhorns, and did not enjoy their time with VIDEOBALL.

Buddy Number Four quietly watched from the sidelines.

It's better than FIFA.. Boring gameplay with not much to do.. It isn't very impressive. It lacks ALOT. I figured this would be something to tinker around in and things. But within a few moments it was already boring beyond belief.

What did me in though was. Drop something from your backpack and it's 'gone forever'.

. I'm gonna be honest, it wasn't my proudest fap.. mk10 is easy when you get used too the controls its one of my faveirout games and i have 2 faveiruots fortnite and mk10
